CHRISTIAN WOMAN

the world's pre-eminent christian women's website

Christian Woman has been in the Christian marketplace for over 60 years and is a trusted brand. We give you access to the most important consumer – the decision-maker. Women influence over 80 per cent of household spending and they do that from the privacy of their own home! Your ad on a trusted website with engaging content will see results.

our unique offering

Christian Woman is unique from many other websites in that we do not charge for impressions or clicks. Our banners run monthly, so you OWN the banner space for a full 30/31 days. And you can update your artwork as many times in the month as you like.

You can either change your artwork during the month (changes are made same day), or we can pre-load several banners in the one banner space, weighting them as you choose.

Either way, any space you book on Christian Woman, or any of our other editorial sites, is for a calendar month, at a fixed price...

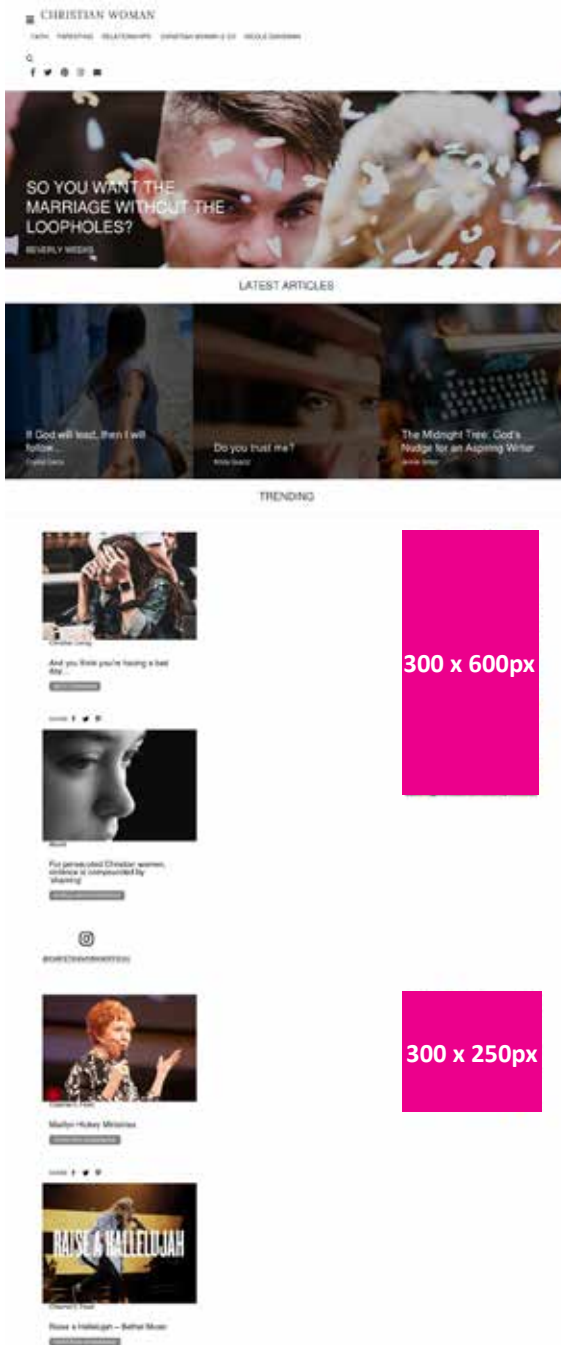

geo-targeting

Our banner system allows your organization to be viewed in the Country or City you choose. You can be global or local - simply let us know your needs and we can accommodate them for you.

sponsored eblast

Sponsored eBlasts give you the opportunity to send out your message/offer - direct to our subscribers' email inboxes, including a direct link back to your chosen URL/s.

Our data is broken into the following regions:

- US and Canada
- UK and Europe
- Australia and New Zealand

All Sponsored eBlasts are sent out with the Christian Woman header, so recipients know and trust the content contained inside, leading to a greater response rate.
